

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

#### STATE OF NEW YORK

##### INSURANCE DEPARTMENT

ALBANY, August 29, 1910

*To the Honorable the Legislature of the State of New York:*

The Superintendent of Insurance has the honor to transmit herewith, for your consideration, the reports of the corporations authorized to transact the business of Life Insurance in this State, pursuant to the Insurance Law, showing their condition and business for the calendar year ending December 31, 1909.

\* \* \* \* \*

The summary of the statistical tables immediately following and also the tables themselves, so far as assets and surplus items are concerned, are based upon the department valuation of bonds and stocks. The companies' own valuations of their securities are carried into the abstracts of their statements in this volume.

#### GENERAL SUMMARY OF STATISTICAL TABLES

Table I is a general summary of the business of life insurance for a series of years. It shows the number and amount of policies in force, together with the gross assets, liabilities, surplus and other funds of the life insurance companies of this and other States.

## ASSETS

Table II gives the assets of life insurance companies doing business in this State on December 31, 1909. The gross assets were \$3,467,474,821.41, an increase of \$263,281,470.01 as compared with the previous year. Of this amount New York State companies have \$2,031,878,877.00, an increase of \$130,118,909.27; companies of other States, \$1,435,595,944.41, an increase of \$133,162,560.74. The aggregate of premium notes and loans shows an increase of \$1,407,421.79 during 1909, while deferred and uncollected premiums have increased \$720,500.15.

## LIABILITIES, SURPLUS AND OTHER FUNDS

Table III shows in detail the liabilities of the several companies, the total of which, excluding gross surplus of \$136,193,836.64 and special funds of \$37,412,696.10, is \$3,293,868,288.67. On the above basis the liabilities of the New York State companies as reported are \$1,956,065,901.56; companies of other States \$1,337,802,387.11. For New York State companies the gross surplus (including \$3,189,000 of capital) is \$45,492,624.82, special funds \$30,320,350.62, companies of other States, surplus (including \$7,900,000 of capital) is \$90,701,211.82, special funds \$7,092,345.48; aggregate surplus and special funds, \$173,606,532.74.

## INCOME

From table IV it appears that the aggregate income of New York State companies was \$380,868,125.23, an increase over 1908 of \$20,957,194.78, other States' companies \$310,267,000.81, an increase of \$27,037,846.24, making the gross income \$691,135,126.04, and the gross increase over the income of the preceding year \$47,995,041.02. The net excess of income over disbursements for 1909 was \$217,336,085.22, while for 1908 it was \$187,418,198.19. The total premium income for 1908 was \$493,872,986.41, for 1909, \$512,055,036.40.

## DISBURSEMENTS

Table V shows the disbursements of the year to have been \$473,799,040.82, an increase of \$18,077,153.99 compared with the preceding year; \$206,924,961.89 was paid for claims, \$73,037,204.76 for lapsed and surrendered policies, \$62,185,532.98 in dividends to policyholders, \$1,858,447.74 on supple-

mentary contracts not involving life contingencies, \$843,980 in dividends to stockholders, \$44,157,294.91 for commissions, \$44,035,075.29 for salaries and medical examiners' fees, \$1,162,231.41 loss on sale or maturity of ledger assets and \$39,594,311.84 for miscellaneous purposes. This classification shows that \$344,006,147.37 was paid to policyholders, while the cost of management, including dividends to stockholders, was \$129,792,893.45.

### POLICY RECORD

Tables VI and VII present the policy record for 1909, industrial business not included. The New York State companies issued 342,707 policies, insuring \$576,108,902, and terminated 252,179 policies, insuring \$475,948,749. The companies of other States issued 352,415 policies, insuring \$708,133,145, and terminated 172,227 policies, insuring \$345,076,195. The aggregate of the above is 695,122 policies issued, insuring \$1,284,242,047, and 424,406 policies terminated, insuring \$821,024,944. Compared with 1908, it appears that the companies issued 102,515 policies more last year, and the amount of insurance written increased \$174,864,906. There were 10,157 less policies terminated in 1909 than in 1908, while \$42,123,389 less insurance was terminated.

The terminated policies are scheduled as follows:
